Decision Coverage

What knowledge do I need

Smart Business will have
Agents with access to the
right knowledge

Knowledge Retrieval and Data Privacy

Data Privacy & Compliance

“If you are logging in with your consumer google account and choose to provide feedback, human reviewers may review your queries, uploads, and the model's responses to troubleshoot, address abuse or make improvements.”

Google (NotebookLM)

“When you use our services for individuals such as ChatGPT or DALL•E, we may use **your content to train our models.”**

OpenAI (ChatGPT)

“we may use any of the above information[User Input] to provide you with and improve the Services (including our AI models) and ... monitoring and analyzing trends, conducting internal research and development, ...”

Perplexity

Smart Business will be
conscious about sharing
knowledge with Agents

Workshop Time

Intro Round

Who are you, What do you do, One fun fact about you

Meet Aesir,
your new Company

What did you learn
working for Aesir?

Are you using AI Agents with company knowledge today?

What have you learned, what works, what doesn't?

Imagine an Enterprise Agent with ALL your company knowledge

In your day to day work where would you apply it?

What knowledge would be crucial for such an Agent?

Imagine the Future ...

If we have AI Agents now that behave like very **knowledgeable Interns**. What can you do if they suddenly become 100x more productive? What company knowledge do they need to have then?

Trusted AI for smarter Businesses

- 🧑‍🤖 Autonomous RAG agent – no more upload, universal context
- 🧑‍🤖 Private cloud / on-premise – fully GDPR compliant, 100% loyal
- 🧑‍🤖 Business automation – amplify your answers by taking actions
